## Dear Colleagues:

We are delighted to welcome you to the British Columbia Centre for Excellence in HIV/AIDS 2024 BC-CfE Update on Syndemic Conditions. This one credit-per-hour Group Learning program has been certified by the College of Family Physicians of Canada and the British Columbia Chapter for up to **4 Mainpro+® credits** [SESSION ID# 202189-001].

The BC-CfE is committed to working with physicians, health care providers, and the community to engage and retain affected individuals with appropriate treatment, care and support with the goal to reduce morbidity and mortality from syndemic conditions. Knowledge transfer through continuing education for health care providers is a key component of the BC-CfE Treatment as Prevention® strategy.

Video presentations of today's event will be posted on our website. Continuing Professional Development and Attendance Certificates are available. If you are not on our mailing list, please sign up and consent to receive emails. Please do so by checking the appropriate boxes on the contact sheet.

Thank you for taking the time to attend today's Update. We look forward to your active participation and feedback.

## Learning Objectives:

Following this conference, attendees will be able to:

1. Discuss the interaction of various comorbidities within syndemic theory
2. Identify optimal strategies to accelerate the control of syndemics within key populations in British Columbia
3. Illustrate the emerging role of preventive therapy for the control of bacterial sexually transmitted infections, including but not limited to syphilis
4. Demonstrate the role of enhanced primary care and supervised consumption to enhance outcomes among persons who use drugs within inner city settings
