“Employing HIV Peer Research Associates: Are We Providing Enough Support?”

Employing people living with HIV as peer research associates is gaining popularity today as Community Based Organizations and researchers attempt to integrate the greater involvement of people living with HIV more meaningfully into new research projects. By openly discussing and including the input of peer workers to develop industry standards of support provision we hope to offer a valuable resource for researchers, community organizations, and others who seek to employ people living with HIV for research projects.

Our Panel of Experts:

Surita Parashar

Principle Investigator,
“The way I see it” Study

Shelly Tognazzini

Peer Navigator,
& Peer Research Associate

Chuck Osborne

Peer Research Coordinator,
& Peer Research Associate

Ben Stevenson

Peer Research Coordinator,
& Research Assistant

Angela Kaida

Principle Investigator,
“CHIWOS” Study

Jonathan Postnikoff

Peer Research Associate,
“GPS” Study

Moderator:

Robert Ablenas
